22 June 1949

2. About 40 twin-engine aircraft were parked at the STRAUSBERG airfield on 22 June 1949. The field was being repaired and allegedly expanded. A Soviet Air Force clothing and ordnance depot was housed in the former rolling mill. *

3. Comment:

- * a. Another source reported intensive flying, mostly night flying, with twin-engine aircraft, between 23 and 30 June 1949.

- b. Report confirmed that an air unit was again stationed at the STRAUSBERG airfield. This unit, reportedly equipped with Pe-2s, is presumably assigned to the III Bnr Corps. From the number of aircraft counted at the airfield it is inferred that one regiment is stationed there. The reported support credibility of source.
